

NO MELT PEANUT BUTTER SUET FOR YOUR WILD BIRDS

1 (18 oz.) jar of crunchy peanut butter
1 lb. lard
4 C. quick cook oats
4 C. cornmeal
2 C. flour
2/3 C. sugar

Melt lard and peanut butter over low heat. Stir in oats, cornmeal, flour and sugar. Pour mixture into flat containers; 1" – 1 ½" deep. Cool. Cut into squares/blocks that will fit into suet cage. Place a block in suet cage and hang outdoors for the birds. Freeze the extra blocks. Blocks can be used directly from the freezer.

Notes: Recipe came from Becky Bailey. It is from the July 5, 1996 issue of *Wild Birds Magazine*. It is a guaranteed favorite of all the birds that come to my yard, including woodpeckers. Don't use natural peanut butter or suet will melt outdoors. Any kind of flour works.
